

Cocoon

We are manufacturers of felt cat cave in Nepal made of 80% of sheep wool and 20% of yack wool. Ours products are hand made in our workshop by nepalese women to allow them to improve the life and the education of their children. Each piece is unique and without any sewing. It's a natural product. Felt is a sound and thermal insulator so the cat is like in his bubble where he can sleep quietly. It's warm and comfortable for the cats but It's also a decoration object for his master.

Toys for cats 100% natural : felt balls, wood sticks, felt and feathers.

Felt slippers for children :
