

BONGUSTA

Bongusta is a Danish brand, founded in 2021, based on the love for colours, quirky design & admiration for traditional Indian craftsmanship.

In close cooperation with our local Indian crafts partners, Bongusta creates soft bath robes and towels, hand-tufted rugs, hand-quilted pillows, and bed covers. Items, which all stand out in colours, materials and in their hand-made quality and detailing.

At M&O we will present our collections of:

Hand-tufted rugs in quirky design - plus rugs made from waste material

Colourful and soft Naram towels and matching luxurious bath robes

Bed covers and pillows - made with hand-quilted details

All Bongusta's goods are designed in Denmark and made in India, where we maintain a close collaboration with the best local craftspeople, when it comes to quilting and tufting. During travels in India through the years, we've met skilled craft masters, who continuously help us develop and manufacture the Bongusta range.

You will find us in the home accessories sector, Hall 4, stand D138 with fellow cool upcoming brands.
