

LINEN TALES

This season, find comfort and balance with our **Autumn / Winter 2022-2023 home linen collection**. Let the new Table and Kitchen linen and linen home accessories create a cozy atmosphere where you and your dear ones can enjoy tasty food, cozy candlelight, and each other's company. Inspired by the magnificent colors, scents, and moods of changing nature, the new range features a harmonious tandem of a lively **Orange Flow** and **Orange Flow on Natural** prints, and a soothing **Hazelnut** hue.

ORANGE FLOW, both on white and on natural, is the splash of color you need to boost your mood on chilly days. The vibrant colors of the print will enliven your gatherings and home parties, so invite your loved ones to cook, laugh, and live fully.

When you need a minute of peace, turn to earthy and bold **HAZELNUT**. This restful hue will elevate the interior, bringing the delicate beauty of melancholy into your home.
