AW22

| kreadfunk - AW22

Welcome to the new Kreafunk

Is the opposite of opposite the same or opposite? And if something is black and white, is it then really real when those aren't colours? We don't have the answers to these questions, but we do have a shiny new Kreafunk universe to show you.

The new logo and submark are inspired by music, the nodes, the conductor, and how he or she moves to guide the orchestra.

It's light, fluent and oozes musicality. The colour accent line symbolises the first beat, the first tone, and the beginning of something great.

| kreafunk

© Autumn Winter 2022 // season guide

In this issue

Besides looking all shiny and new, from AW22, most of our products will be produced from 100% recycled plastic to ensure a continuous great friendship with Mother Earth.

We have the most prominentt speaker in Kreafunk's history to show. It's packed with 60W digital amplifiers, features Stereo Play and has an indoor and outdoor mode. A true party animal. You can also look forward to meeting our new and modernised versions of our oldie, but goodie speaker aGROOVE. We love it so much, that we designed a [plus] and a mini version.

In the land of headphones, we're introducing aPOP, a tiny earbud that'll fill your ears with mighty sound. Available in a rainbow of pastel colours - so pretty that they're almost edible.

As usual, you can find our entire range at the back.
