

With beautiful four seasons in Japan,  
we learned to sense and appreciate sensitive transition of each season in many ways from the ancient times.  
Our 2022 Autumn & Winter Collection was arrived with our theme "Meals and Seasons Calendar of MARUMITSU POTERIE".  
MARUMITSU POTERIE invites you to join this seasonal celebration through your dining table.

### **NAMIGUMO - autumnal equinox -**

Impressive organic shape of wavy cloud patterns. Elaborate wave-like design from the center leading to the edge of the plate is pleasant to the eye.

### **VIVO - early winter dew -**

Named after a musical word meaning "lively" or "active" in Italian. Having no rim or decoration, a stylish plate with completely flat surface is easy to arrange any dish.

### **SUMIKIRI - winter solstice -**

Square box with "cut of design corner" design called SUMIKIRI is made from Japanese earthenware. Perfect for any picnic, pastry, or for presenting traditional Japanese new year food.
