B I O G R A P H Y

Since I have my earliest memories I have always loved creating. I have spent my childhood letting my imagination and feelings flow through charcoal, oil and acrylic.

I have been lucky enough to travel and be in contact with different cultures discovering a world of colors and textures that are in my memory.

Everything that surrounds me inspires me and is reflected in my works.

I like to use new techniques, paint on all kinds of materials with different accessories.

I enjoy what I do and I put all my heart into each of my creations.

Today I have settled in Madrid where my studio is located.

My work is available on my website

Available at MOM , digital version of Maison & Objet

COMMISSIONED WORKS

I work for individuals and professionals.

In both cases I make a study of the space where the work will be placed.
Working with the client to choose the right size and then the style and shades.
After this study, I send a simulation of the final result.

For professional clients it is possible to make printed reproductions of my
original works available in the catalog or on request.
