TIMELESS
Dining Chairs

Duistt's selection of dining chairs unites classic and timeless style, with sources of inspiration that can reflect something from the past history, such as art, architecture, photography, cultures and fashion.

The use of noble and natural materials is essential to ensure that the pieces last over time. The use of sustainable materials, to create a sustainable product, is a pillar that is always considered through the durability, quality and design of the pieces.

BOSSA
Dining Chair

BOSSA

Dining Chair

The “bossa” dining chair is inspired by the subtlety, particular charm and harmonious simplicity of the brazilian music movement that emerged in the late 50’s, “bossa nova”.

BOSSA

Dining Chair

Bossa Nova has been, for a long time, true sources of inspiration for Duistt. There is in these elements an intangible poetry that the Portuguese furniture brand seeks to translate into forms that represent the freedom and audacity of the Brazilian soul.

After the success of the BOSSA tables collection, with the creation of two coffee tables and two side tables, Duistt presents BOSSA DINING CHAIR, a series that challenges the limits of creativity.

With delicate shapes and natural materials, this mesmerizing chair will bring the carioca heat to any ambience.

Finishes

ABOUT DUISTT

Since its foundation in 2014, Duistt has been recognized for its contribution to creating experiences memorable through design. The Portuguese luxury furniture brand breathes history and modernity through objects that are committed to the comfort and quality of materials. Duistt puts people at the center of attention – how they live, what they want and how they use their objects – the creative team works hand in hand with its customers for a personalized experience, creating tailor-made projects. All Duistt products are handcrafted and to order and can be customized with different sizes and materials. Here, the expertise and traditional techniques used to create each Duistt pieces are essential, a know-how that crosses generations and that the brand is keen to preserve and support in its global strategy. As they integrate a rigorous manufacturing process, the products follow a lead time that varies between 6 and 10 weeks.
