ABOUT DUISTT

Since its foundation in 2014, Duistt has been recognized for its contribution to creating experiences memorable through design. The Portuguese luxury furniture brand breathes history and modernity through objects that are committed to the comfort and quality of materials. Duistt puts people at the center of attention – how they live, what they want and how they use their objects – the creative team works hand in hand with its customers for a personalized experience, creating tailor-made projects. All Duistt products are handcrafted and to order and can be customized with different sizes and materials. Here, the expertise and traditional techniques used to create each Duistt pieces are essential, a know-how that crosses generations and that the brand is keen to preserve and support in its global strategy. As they integrate a rigorous manufacturing process, the products follow a lead time that varies between 6 and 10 weeks.
