DESIGNED IN COLLABORATION WITH GENSLER

## *The Twenties are back: the new Twenties collection*

The Twenties collection of taps for washbasins, sanitaryware, bathtubs and showers offers a new version of Devon&Devon classic-contemporary style inspired by the exquisite design of the 1920s.

Designed in collaboration with Gensler, the new line makes explicit reference to the simple forms, rich materials and attention to detail of American Art Deco, which had also been the design studio's inspiration for the Holiday and Dove bathtubs.

A sophisticated, innovative yet familiar style distinguishes all the pieces in the Twenties line, each of which can feature custom materials and finishes and be coordinated with all the products in the Devon&Devon collections.

«The design inspiration for the Twenties was a study of form and personalization. We set out to create a form language that was intended to be timeless. Something that surfed the line between being referential to the Art Deco time period, but also something that had a rather contemporary bent».

Explains Daniel Stromborg, Product Design Director of Gensler

## *Iconic and modular*

All the elements of the Twenties collection are available with six different finishes: chrome, matt black, polished nickel, 14kt gold, 24kt gold and antique brass.

In addition to choosing the finish of the brass bases, the covers of the handles and the tap can be customised with exquisite panels of Bianco Carrara or Calacatta Oro marble.

The combination of finishes on the base and handles offers surprising solutions, such as the completely new combination of matt black and Bianco Carrara marble.

## *Exclusive and versatile*

- a solution for installation on the edge of the bathtub, complete with spout, diverter and spray handset;
- a wall set that emphasises the sculptural lines of the three elements and is ideal for retro-style bathrooms;
- a minimal washbasin set that reinterprets the classic three-hole composition in a contemporary key;
- a shower set with two- or three-way thermostatic mixer tap and flexible spray handset.
