

KITCHEN ROLL HOLDER

Our kitchen roll holders are a playful combination of form and function. Adorning the top of each holder sits a hand-carved bird painted in non-toxic acrylic paint. Their detail-rich nature-inspired expression breathes life into an otherwise plain kitchen item.

The curious, talkative, and intelligent sulphur-crested cockatoo is probably the most well-known of all cockatoos. It is also one of the loudest Australian birds and lives in large colonies of up to a hundred individuals. They nest in tree hollows or cliff crevices in Tasmania and northern and eastern Australia.

*Material: Wood and environmentally friendly paint | Size: L: 140 W: 140 H: 310–440 mm | Price: 29,50 eur
Two lengths of rod included to accommodate different standards of kitchen roll sizes: 255 and 345 mm.
