

SABIÁ 

"Nossa cultura conta nossa história"

EN

SABIÁ is a French-Brazilian decoration brand that aims to present Brazilian culture through ecologically and socially responsible products.

Our creations and collaborations convey the soul of a Brazilian house: a festive, relaxed, and welcoming atmosphere, marked by good taste and the pleasure of living; an environment of mixtures and creativeness that proudly celebrates the exuberance of our country's nature.

All of SABIÁ's art is developed by Brazilian artists, who, through the authenticity of their eyes, express the plurality and diversity of our culture. Each new collection is also a new narrative of our history.

All our textile products use linen as a raw material, a natural fiber originally from Europe. Its cultivation is done with rainwater, not requiring irrigation, besides respecting a regenerative agricultural process.

In order to support the local economy and the french "savoir-faire", the entire manufacturing process of SABIÁ products is Made in France. In addition to reducing our environmental impact throughout the process.

Welcome to our home, « uma Casa Brasileira »

SABIÁ

Nossa cultura conta nossa história.

“O Canto do Sabiá» Collection

When we created SABIÁ, we wanted our first collection to be as emblematic as our brand's name. Nothing could be more significant and representative for us than to create our first collection in honor of the sabiá – bird symbol of Brazil. This bird is present throughout the national territory, through multiple species and colors. The name sabiá comes from Tupi-Guarani, one of the many native languages of Brazil, and means “the one who prays a lot”. Its prayers and songs are so beautiful that they resemble the sound of a flute.

We invited the artist Clarisse Romeiro (Atelier Veredas) to design our first collection. Entitled “O Canto do Sabiá”, the collection is based on the artist's perception of the bird in our culture. The artist has chosen to represent this universe through 3 different prints, named: « Sabiá », « Recanto » and « Arrasta-Pé ».

« Sabiá » is the portrait of the bird itself, drawn meticulously by Clarisse. This pattern highlights the particular aesthetic of the artist, who uses different graphic textures to recreate compositions and abstractions inspired by the bird.

« Recanto » refers to the place where the bird lives: amid tree leaves within the Brazilian exuberant nature. « Recanto » in Portuguese also means a place for conviviality, comfort, and warmth, a synonym for nest.

« Arrasta-Pé » is about sonority and rhythm. The motif alludes both to a musical score and to the bird's footprint. Through her drawings, Clarisse also brings our “brasildade» to her work. She represents the Brazilian culture of music and dance by calling the print «arrasta-pé, which is the name of a popular ball typical of the Northeast region of Brazil.
