T'RU
Sustainable Handmade in Bolivia

SUMMER
Collection
2023

Introducing our new spring summer collection. We extend our work to other regions, more artisans and other exceptional sustainable and natural materials!

The designs are modern and temporary, we use local sustainable materials that allow each weaving community to make the most of their ancestral loom weaving skills.

Each piece is unique and connects with the customer to create a unique and original luxury accessory. T'RU Sustainable Handmade takes care of the sustainability of local materials and local artisans; we care for a responsible production and our planet. We empower these artisans creating a positive impact in their lives and their families. **We look forward to your visit at MOM Paris 2023, Halle 5A - Q96!**
