

A Home in Nature

Chhatwal & Jonsson present a beautiful collection of handmade textiles for Spring/Summer 2023 that is inspired by nature, in colors such as sky blue, forest green, spicy yellow and a new shade of magenta. Materials and patterns in creative combinations make the company's textiles stand out, once again.

- In our universe, handmade products are the most beautiful thing we can have at home. Nature is a source of inspiration for us, everything we do, and manufacture breathes respect for it. Now for spring, we have taken notice of this and chosen to produce colors on our textiles that are reminiscent of nature, says Stig Jonsson Creative Director, Chhatwal & Jonsson.

The textile company is well known for its cushion covers, made of high-quality fabrics in exciting pattern combinations. A successful union of Scandinavian design and Indian craftsmanship.

- This spring, we mix materials and patterns to create excitement in the interiors. Soft shapes and textures continue to be an important feature, along with our signature geometric and ethnic patterns. The style harmonizes with the help of a uniform color scale, continues Stig.

Chhatwal & Jonsson are also recognized for their carpets, made with the best of nature in focus. In 2019, the company put the concept of traceability on the map in the textile and interior design industry, today Chhatwal & Jonsson are pioneers in the field. Every season, new traceable carpets are added to the range. In the spring of 2023, the company will launch the popular carpet Loha in a light beige color as well as Badal, an off white carpet with a tactile pattern.

- At Chhatwal & Jonsson, we use pure natural materials such as linen and cotton in cushion covers and New Zealand wool in carpets. Materials that are durable and that can be easily recycled when they approach the end of their life cycle, concludes Stig.

The collection is available for sale at www.chhatwal-jonsson.com and at selected retailers worldwide from February 2023.
