

# Colori del Sole

Colori del Sole is synonymous with quality craftsmanship.

It is a synthesis of tradition, passion and colour: emotions that only products made by hand with dedication and ancient techniques can transmit.

We are the ambassadors of slow production, handmade products, made by skilled workers, proud of their tradition and their country.

Colori del Sole is a daughter of Sicily and, like Sicily, it is made of sun, land and sea, impregnated with salt and sweat, with the tears of the men who have inhabited it for millennia, loving it and hating it at the same time.

It is the "condensation" of millennia of humanity that is synthesised in the son's contrasting love for his own mother, from whom he distances himself, but whom he cannot do without.

## CRAFTSMANSHIP ON FABRICS

Colori del Sole is a handicraft company with strong ties to the territory, specialising in the production of prints on high quality Italian fabrics. Our creations combine uniqueness, tradition, research and emotion in a single concept.

The beating heart of the company is our human resources, who work in synergy, as in a big family, with the aim of scrupulously meeting our customers' needs. It is thanks to them that today we are able to offer our product in Colori del Sole shops and at our partners', thus contributing to the enhancement and promotion of the image of our territory.

## SERIGRAPHY

Colori del Sole fabrics are distinguished by their special screen printing technique. The printing of the motifs incorporated in carefully selected top quality fabrics results in an unusual and original product.

Inspiration, tradition and quality are the pillars on which Colori del Sole products are based. We handcraft products inspired by the shapes, colours and decorations typical of our historical and cultural heritage, because we firmly believe that tradition is a beauty to be protected and preserved.

The hands are positioned as if they are carefully handling or finishing the piece. The background is slightly blurred, showing other people and what appears to be a workshop or factory setting.
