

PRESS RELEASE

Just three years after launching his wood carving business, Nils Orm exhibit for the first time at the Maison & Objet Fair

Passionate about working with wood and inspired by nature and the world around it, **Nils Orm** highlights the natural beauty and imperfections of wood while creating elegant and modern forms.

Columns, sculptures on plinths, decorative panels, small or large-scale creations, he creates **unique pieces** with **traditional tools** (wood chisels, gouges, rasps, etc.).

Nils Orm attaches great importance to the **aesthetics of volumes and finishes**. (paint, yaki sugi ita, oil, sandblasting...). **Light also plays an essential role** in his creations : depending on the orientation, the type of light and the finish chosen, the sculpture will take on another dimension.

"I am very happy to participate in Maison et Objet for the first time", said Nils Orm. "It is an honor to be able to present my works to an international audience of interior decoration and design professionals. I look forward to presenting my sculptures and seeing how people react to my creations."

The Maison et Objet fair, which will take place from January 19 to 23, 2023, is considered one of the most important events for the interior decoration and design industry in the world. It attracts thousands of visitors from all over the world every year, who come to discover the latest trends and new creations by international designers and artists.

Nils Orm's creations will be presented in the **Craft sector, hall 5A, stand J55** of the fair. Visitors are invited to come and discover them and meet the artist throughout the duration of the fair.
