

All the charm of stone-effect porcelain stoneware tiles: introducing **Stile** by Casalgrande Padana

The charm and beauty of natural stone have inspired **Stile**, Casalgrande Padana's new **porcelain stoneware tile collection** that stands out for its sophisticated aesthetics, rich colour palette, and variety of sizes and finishes.

Stile comes in six colours (Stile Beige, Black, French Grey, Pale, Pearl, and White Smoke), eight sizes (10x30, 30x60, 60x60, 60x120, 30x120 cm, 120x120, 45x90, and 90x90 cm), and two thicknesses (9 and 20 mm).

Stile Black, French Grey, Beige, Pale, Pearl, and White Smoke

Stile **stone-effect tiles** come in a range of surfaces (antiqued, antiqued silk, bush-hammered, diagonal, grip natural, natural silk, and striped), and are perfect for creating uninterrupted surfaces between interiors and exteriors.

Flooring: Stile French Grey - Covering: Stile White Smoke

The outdoor versions (60x60 and 90x90 cm, 20 mm thick) can be laid on screed, ensuring excellent load resistance, or dry-laid on sand, gravel, or turf.

Flooring: Stile White Smoke - Covering: Stile Beige Composizione A

Moreover, the combination of three sizes (30x60, 60x90, and 60x120 cm) in the same box allows you to create striking geometric compositions that emphasise the beauty of these tiles and give them a key role in the décor of the whole setting. The 30x30 cm mosaic tiles (with 5x5 or 5x15 cm pieces) and a 30x60 cm brick-effect composition complete the collection.

Flooring: Stile French Grey naturale

Stile tiles are squared and rectified and perfectly mimic fine stone surfaces. Their different sizes and finishes allow for many laying patterns and solutions for highly personalised spaces.

Flooring: Stile Pale Naturale – Coverings: Stile Beige Rigata

Stile tiles are made solely with natural materials, without any plastic or harmful substances. So, they're **environmentally sustainable**, fully recyclable, fire-resistant, hypoallergenic, antibacterial (thanks to the exclusive [Bios Antibacterial®](#) technology, available on request), and frost-resistant. Plus, they remain unchanged over time.

These compact and incredibly wear-resistant **stone-like tiles** are the result of cutting-edge technology, making them suitable for any climate and any project, including new and restored commercial and public buildings.

Stile is an elegant and versatile **porcelain stoneware** tile collection that combines sophisticated beauty, excellent technical features, and a vast array of finishes. Its nuances mimic the natural material that inspired it, adding a strong character to any setting.

Flooring: Stile Black - Covering: Statuario Fine
