

RIVOLTA CARMIGNANI PRESENTS NEW HOME COLLECTIONS AT MAISON&OBJET PARIS

Rivolta Carmignani, historic company leader in the production of signature linen and Made-in-Italy ambassador at the most prestigious hotels and restaurants in the world, presents the newness of its Home F/W 2023/24 collection at Maison&Objet Paris, from 19 to 23 January.

A refined and elegant setting characterized by neutral shades is the background to the new Rivolta Carmignani bed, bath and table proposals that present themselves as the new classics reinterpreting iconic elements of the home linens in a contemporary way: flowers and damasks.

The protagonists are the high-quality materials and textures that show a new scenario of luxury. From the timeless pure cotton sateen, embellished with refined, three-dimensional embroideries and jacquard pattern able to enhance the soft and silky hand thanks to light tricks and reflections, to the natural fibres of linen and hemp, eco-friendly and increasingly appreciated by interior designers.

Silk in its 'Lazy' version will not be missed. It gets a contemporary look thanks to stonewashed finishing. For the next F/W season, Rivolta Carmignani gives this line a new look embellishing it with jacquard patterns for a unique and refined pattern.

While the new bed collections catch the attention for the precious embroideries that enhance Rivolta Carmignani tailoring know-how, jacquard is once again under the spotlight of bathroom with Imperiale collection, available in a wide colour palette suitable for each spaces, and Petali, the new towel made of pure cotton velour terry.

Floral theme also returns in the table area with Fior di Campo and Glicine collections. Like a flowery garden, the new embroideries run along the precious fabrics decorating spaces in an original and unique way.

To add a touch of colour and to recall the culture and know-how of the company, the jacquard linens Boboli, Giardino Italiano and its new version with all-over pattern.

Finally, the backdrop will be a succession of shelves and hangers, where some of the company's most iconic lines will be set up, from the uniqueness of the Lounge collection, embellished with sartorial embroidery, to the timeless elegance of jacquard themes.
