

## CODICEICONA

Codiceicona identifies and gives new life to design objects, designed by the best Italian masters of the twentieth century, through the acquisition of publishing rights and the enhancement of know-how, in respect of each original project.

The Designers represented are:

Luciano Baldessari / Franco Albini / Joe Colombo / Francesco Trabucco, Marcello Vecchi / Corsini & Wiskemann / Giancarlo Piretti / Giuseppe Cormio / Shigeaki Asahara / Alessandro Mendini / De Pas, D'Urbino, Lomazzi / Walter De Silva / Roberto Fiorato / Cini Boeri.

Codiceicona is an Italian cultural brand and is a Benefit Company that operates on the basis of rigorous sustainability criteria, in guaranteeing transparency, integrity and respect for the people and communities in which it operates, promoting culture, innovation and research by devising transversal projects in support of the circuit of Made in Italy arts and creativity.

Once the "icons" have been identified according to codes of sensitivity and shared values, the production process of the chosen objects is carried out entirely in Italy through the hands of craftsmen with talents and affinity with the work group made up of designers, architects, specialized consultants, storytellers, art directors, teachers, design experts.

In Codiceicona art and design converge in the re-edition of unique and numbered pieces, which become an articulated narrative made up of people, materials, documents, processes, the pursuit of excellence, collaborations and stories.

15 are the re-edited and currently available products; new ongoing studies will enrich the Codiceicona 2023 collection with new products and designers.
