

# Wewood presents its brand-new collection at Maison & Objet

**PORTO, JANUARY 2023** – During Maison & Objet 2023, the Portuguese furniture brand Wewood will present a new collection in collaboration with the German designer Christian Haas.

Four products have been designed specifically for dining and lounge spaces.

- The dining set includes the Amos dining table and Nido armchair.

Amos is an organic and defined wood table in three sizes: a solid wood top and a conical wooden base. This makes it easy to host friends and family. A communicative table that highlights Wewood's woodworking expertise combined with Christian Haas' know-how.

Designed to blend seamlessly into a wide range of interiors, the Nido armchair is available in a variety of fabrics and leather. No matter where you place it, it makes an impact.

For lounge interiors, Wewood and Christian Haas developed the Amos coffee/side tables and the Nido lounge chair.

The Amos coffee/side tables come in a set of two tables with different dimensions that are inspired by the Amos dining table. The conical base provides excellent stability to support the solid wood tabletop, as well as creating visual intrigue.

Amos can be used as a single side table or combined. The two tables are overlapped to create a dynamic living room center table with two shapes and height levels.

The lounge set is completed with the Nido lounge chair, a compact chair with a subtle sculptural presence. Its soft curves and silhouette evoke a nest-like feeling.

FOR IMMEDIATE RELEASE

An expressive sword-shaped base in solid walnut or oak wood supports comfortable, welcoming upholstery.

With state-of-the-art fabrics and leather, the lounge chair is an example of outstanding craftsmanship that will certainly age gracefully.

The two sets are complementary and the design is suitable for a private house, a hotel or an office lounge because of its versatility.

This is the second collaboration between Wewood and Christian Haas, who designed the Soma table in 2018.

Born in Germany in 1974, Christian Haas established his studio in 2000. The Industrial Designer has created ever since products through multiple disciplines from furniture and lighting to porcelain and glassware.

His design approach merges simplicity and elegance. His sense of aesthetics is driven by the harmony between sobriety, usefulness, emotionality, longevity and uniqueness.

Throughout the years, his work has been honoured with awards like the Red Dot Design Award and the Elle Decoration International Design Award. He currently lives and works in Portugal.

At Maison & Objet from 19 to 23 January in Hall 6, Stand I30/J29, Wewood will present the brand-new collection as well as a wide range of fabrics as well as some iconic pieces from previous years.
