Il Fanale @Maison Objet 2023

This year Il Fanale will be present at Maison Objet proposing its journey to discover the Mediterranean, the new representative mood launched with the latest catalog "The Emotion of Light".
A representation of the Mediterranean characterized by warm and natural tones, by the emphasis of the material and its workmanship, result of the artisan know-how
A skill that now belongs to the company's DNA and that makes Il Fanale a flexible and dynamic reality, easily able to interpret the customer's requests in the creation of custom lamps entirely Made in Italy.

At Maison Objet you will find:

Alma – design by Matteo Cibic
The evocative fusion of glass and brass gives rise to Alma, a collection of lamps in contemporary design. A spherical luminous body is suspended as if on a trapeze for a touch of surreal irony with an interplay of geometry and balance. The dimmable LED light source provides intense light: the result is an iconic object with an immaterial aura. Alma is available with a brushed brass finish in five pendant lamp models.

Bloom – design by Matteo Zorzenoni
The Bloom collection of lamps is reminiscent of the precious nature of perfume bottles and diffusers of oriental essences. The type of glass gives rise to different light effects, more subdued or more sensual. The magical object comes alive as a single piece or in a combination of several versions. The collection includes pendant lamps, table lamps and wall lamps. The grey or pink glass, also available in a satin version, features a 'balloton' detail, a traditional Venetian technique with a special optical effect.

Typha – design Calvi Brambilla
The shape of the light module is inspired by the Typha Latifolia, the botanical name of this beautiful spiky water plant. Each natural brass stem blooms in a LED light enclosed by tubular glass.
Depending on the desired effect and the space to decorate, it is possible to choose from pendant lamps with one, three or six lights, wall lamp or floor lamp.

Madame – design DT Studio
The Madame collection of lamps features light and elegant lines, attracting the attention of the observer like a dancing ballerina. The elements comprising its perfect shape are the radiating torso and meticulously proportioned head, adorned with a small sphere.
Madame is available in natural brass or a two-tone version, as a pendant lamp (single or double), wall lamp and ceiling spotlight version.

Cone - design DT Studio
The Cone collection of lamps clearly recalls the natural simplicity of shapes. Its classic yet minimalist trait complements any domestic or public space. The range includes modern pendant lamps and wall lamps of various types and sizes. Cone is available in an indoor and outdoor version.

Lanterne Slim – design DT Studio
Like caskets of light that illuminate their surroundings, preserving their intimacy and creating a sophisticated atmosphere, the brass lanterns in the collection feature subtle and elegant lines. The antique brass structure makes them ideal for more natural settings. Lanterne Slim is available in a floor lamp version, in three different sizes, or as a wall lamp.

Drop – design DT Studio
Inspired by the lights of village festivals, the lamps in the Drop collection are among the best known and most appreciated from Il Fanale. Simple yet refined, these brass, copper and glass pendant lamps offer an original solution for furnishing indoor and outdoor environments. Reinterpreting the traditional drop shape, they subtly illuminate any space, adapting to the context with natural elegance.

Marina – design DT Studio
A marine style is the leitmotif of the Marina collection, created to meet technical requirements and then developed into an independent design. The collection includes wall lights and lamps, and steplights with a balanced appearance, made of antique brass.

Girasoli – design DT Studio
The best-selling product of Il Fanale, the Girasoli collection features minimalist design inspired by the geometric shape of the cylinder. Rigorous and primordial, with their essential lines these Italian pendant lamps, ceiling lamps and wall lamps highlight the pure nature of the material, the true protagonist of the entire range. The lamps, in different sizes that can also be combined, are available in antique iron, natural brass or antique brass.
