

## AROUND THE WORLD | LAMPSHADE

Introducing Around The World – a mouth-blown opal glass lampshade with a shape resembling a hot air balloon. Its milky white colour, enchanting shape and mild expression make it the perfect addition to any interior setting.

Around The World is a flexible lampshade that can be used as a table or floor lamp, emphasising the meaning behind its shape, or as a pendant with a pendant top piece in white, black, brushed brass or brushed steel, giving a new life and look to the lamp and shape. Pair it with your desired UIMAGE lighting accessories and display your Around The World in a narrow hallway, in the window of your bedroom or on top of your favourite cabinet in the living room.

Around The World is designed by French-Italian designer Luigi Vittorio Cittadini. His designs often have a touch of irony and contrast, but with a background from Politecnico di Milano and with working for several design studios in Milan, an Italian design tradition is also noticeable in his designs.

“Around The World is inspired by the universe of the acknowledged author Jules Verne, representing one of the many means of transportation portrayed in his stories.”

- Luigi Vittorio Cittadini, designer

At UIMAGE, we care about everyone we influence. We make functional and timeless designs that last, we optimise storage and transportation costs with flat-packed designs, to make luxury accessible to you. The aim is to save the environment so that you can save on living.
