

HAZEL BRANCH

Technology and the shapes of nature meet in a functional and sleek design with the new UIMAGE Hazel Branch – a new family member to the Hazel family. The slim shape and the design’s floating expression make Hazel Branch perfect for hanging above the dining table, kitchen counter or in a conference room, offering a practical yet subtle lighting solution.

Hazel Branch has a built-in LED panel with a soft white diffuser that ensures glare-free light. The lamp is compatible with lighting tracks, and two discreet buttons on the lamp’s top make it possible for you to adjust both the light temperature and intensity to match your specific needs or the desired atmosphere.

Hazel Branch is designed by Jacob Rudbeck. His background from The Royal Danish Academy of Fine Arts, School of Architecture reflects how the dynamic curves and solid materials work together, creating a design piece inspired by nature.

“The combination of the materials and distinct details creates a light and floating expression” – Jacob Rudbeck, designer.

Hazel Branch is available in white with white textile cords or in black with black textile cords. With its elegant brass details and brushed steel design, Hazel Branch will add a sophisticated touch to any home or office.

At UIMAGE, we care about everyone we influence. We make functional and timeless designs that last, we optimise storage and transportation costs with flat-packed designs, to make luxury accessible to you. The aim is to save the environment so that you can save on living.
