

TIME FLIES | NEW COLOURS

In efforts to walk towards a more sustainable future, we are now introducing our classic Time Flies chair in 17 new colours of our 100% recycled and certified Horizons textile, exchanging all existing Time Flies fabrics.

Time Flies secures comfort from all sitting positions, and the upholstered chair provides the flexibility of changing the upholstery in minutes, making it possible to change the visual style or colour without having to buy an entirely new chair, securing a sustainable life of the design.

The chair is designed with a top rail that eases into armrests, securing a soft and steady back support from all angles and leaving space for your legs underneath the armrests as you turn your body during the evening.

The new Horizons fabrics for the Time Flies chair are recycled from plastic waste and are certified with Global Recycled Standard and Standard 100 by OEKO-TEX, ensuring that it meets strict social and environmental requirements. Additionally, the certifications ensure that no substances harmful to health or the environment are being used and that the identity of the recycled material is maintained: From the recycler to the final product.

The 17 colours of the Horizons fabrics are inspired by and reflect the many beautiful nuances found in the world and the nature that surrounds us. The carefully selected colour palette consists of everything from calm and Nordic nuances to bold and vivid colours.

At UIMAGE, we care about everyone we influence. We make functional and timeless designs that last, we optimise storage and transportation costs with flat-packed designs, to make luxury accessible to you. The aim is to save the environment so that you can save on living.
