## Welcome Autumn!

We have been looking forward to welcoming you into our new inspiring and captivating autumn and winter universe, where the warm and authentic atmosphere is amplified.

When we move indoor as autumn and winter arrive, we decorate our home like a cosy den - a place for reflection and where the creative soul can unfold.

We hold onto cherished traditions and enjoy knitting, baking, preserving, and fermenting. Gets cozy in soft cushions, wrap ourselves in warm throws, relax in the glow of lit candles, and savour the breath-taking golden colours and burnt shades that indulge and enchant our senses. We slow down, clear our minds, and rejoice in all the splendour of the season.

In the Autumn/Winter 2023 collection, you will be pampered with new textiles in coarse textures, functional UNIQUE wooden furniture with a simple and charming look, as well as a new rustic earthenware series - and everything else you need to create the perfect setting for a beautiful and relaxing autumn and winter season.

The catalogue for Autumn/Winter 2023 is now available online on our website.
