

RELEASE PRESS ANDREANI CRÉATIONS

Andreani Creations is a French brand of handmade jewelry founded 20 years ago.

Renaud Andreani is a ceramist who creates chic and colourful ethnic earthenware jewellery.

This avant-garde designer and artisan, imagines his own enamels in 20 colors, in his workshop, towards Marseille. The designer loves unstructured geometric patterns and takes care of his modern aesthetics by inserting magnets into glazed earthenware to hide the clasps.

Andreani jewelry has a distinctive look, with asymmetrical shapes, black PVC and matt black earthenware that contrasts with the shimmering colors of other enamels.

Each piece is meticulously thought out and patiently crafted to be light and comfortable to wear everywhere.

Renaud Andreani uses traditional pottery methods (moulding, engobage, baking the biscuit, drying time, enamelling, assembly). All the stages of creation combined take several days to arrive at a finely worked piece.

In an environmental approach, natural materials used such as ceramics are environmentally responsible, hypoallergenic and ethical.

Renaud Andreani's meticulous attention to detail and perfect workmanship have earned him recognition in the craft sector, particularly with his "Atelier d'art de France" label, which has been renewed since 2009.

At the ceramic school of Aubagne (13), as a teacher, he ensures the transmission of his millennial knowledge to future generations of ceramicists.

In 2017, the Chambre des Métiers et de l'Artisanat des Bouches-du-Rhône also awarded him the title of "master craftsman".
