

BALCONY II

BALCONY II

With clean design, a collection available in four colours, all just as desirable, BALCONY II is the latest novelty from LAFUMA MOBILIER for making life yet more beautiful!

Never have small spaces been so well furnished with a table and a chair! BALCONY II is the magic of a light ultra-compact chair and a table that stays upright when folded, a design patented in LAFUMA MOBILIER's Drôme workshops.

BALCONY II is also a 100% coloured range, both metal and Batyline®! The manufacturing secret of LAFUMA MOBILIER is the unique combination of these two materials - metal, ideal for long life, and Batyline® for seat and back comfort, with no compromise on comfort and durability.

On balconies, loggias or terraces, summer will be high in colour, for shared moments and well-being close at hand! Manufactured in Drôme and labelled Longtime®.

5 year guarantee.

RRP chair: €59.90

RRP table: €199.90
