

## Nature's Material

The Scandinavian nature continues to inspire us this autumn. Warm earthy colours of nature like forest green, ochre, rust and chestnut brown add style to home interiors. Authentic and handmade items with a Scandinavian eye for design.

*In our universe, handmade products are the most beautiful thing we can have at home. Nature is a source of inspiration for us, everything we do, and manufacture breathes respect for it. This autumn we have chosen to produce colors on our textiles that are reminiscent of nature, says Stig Jonsson Creative Director, Chhatwal & Jonsson.*

With sustainability in focus all our products in the collection are made from 100% natural materials like linen, New Zealand wool and jute. Nature's Material.

*We like to mix materials and patterns to create excitement in the interiors. Soft shapes and textures continue to be an important feature, along with our signature geometric and ethnic patterns. The style is harmonized with the help of a uniform color scale, continues Stig.*

The collection is available for sale at [www.chhatwal-jonsson.com](http://www.chhatwal-jonsson.com) and at selected retailers worldwide from August 2023.
