

VAN VERRE

VAN VERRE is committed to contributing to the preservation of the handicrafts of our world. Valuable knowledge of many ancient crafts that is passed down through generations.

This year's edition we proudly present to you the Fiore di Firenze glasses. Firenze glasses are handcrafted by a family workshop that passes on the knowledge of glassmaking from generation to generation. Each glass is mouth blown by skilled glass masters. The Fiore di Firenze glasses are decorated with the Florentine Iris, the symbol of the city Florence. The word 'Firenze' originates from Latin and means 'the flourishing one'.

In addition to the mouthblown glassware, you will find a wide range of beautiful handcrafted items for your home.

Travelling the historical trade routes, VAN VERRE sources interior products from small-scale workshops. We are a powerful link between the maker and user, resulting in social impact; a sustainable source of income for the artisanal families and a meaningful enrichment for any interior.

Each item is selected with care, making the VAN VERRE collection a timeless range with the signature of its makers.
