# ABOUT MODELEC

## BEYOND THE USEFUL

MODELEC is a French manufacturer of electrical equipment. As an expert in the design and construction of cover plates and mechanisms, this industrialist on a human scale has been shaping raw material since 1976, offering well thought-out solutions for simplified installation. Its core expertise combines form, function and finish, offering controlled designs that suit real-life needs.

# NEW IRIS BY MODELEC PORCELAIN

This year, the Iris by MODELEC collection is available in porcelain. Both strong and delicate, this material is known for both its durability and elegance. Its retro spirit expertly blends with the sleek, contemporary design of the Iris by MODELEC collection. Available in black or white versions.

## COLLECTION

A collection inherited from the aesthetics of the 1930s, the Iris by MODELEC collection is soft: its round shape with soft edges is associated with the «drop» lever, and it lets itself be caressed by the eye. Since April 2023, the collection has also been available in black or white porcelain. Simple, elegant and efficient, it gives your interior a treat on a reasonable budget.

## IRIS BY MODELEC

1▪ 361 White porcelain, steel toggle 2▪ 362 Black porcelain, steel toggle 3▪ 351 White satin finish, steel toggle  
4▪ 352 Black satin, steel toggle 5▪ 353 White Soft Touch, steel toggle 6▪ 354 Black Soft Touch, steel toggles

# NEW M COLLECTION PROTRUDING

Above all facilitators of your electrical installations, our protruding cover plates combine the useful with a pleasant appearance. They become ideal to reveal the raw beauty of an old wall.

Metal tubes and accessories are also available, allowing for the aesthetic concealment of electrical cables. This new solution offers great installation flexibility as well as seamless and customizable integration, particularly suitable for restoration projects.

# HIGHLIGHT M COLLECTION GUN METAL

Two new finishes for this collection. Full brass, tinted in gunmetal or old bronze shades, with a slight satin finish. The eye and hand are not fooled. The M collection fits perfectly in contemporary, minimalist and sharp environments, places that appreciate simplicity.

# HIGHLIGHT M COLLECTION OLD BRONZE

Two new finishes for this collection. Full brass, tinted in gunmetal or old bronze shades, with a slight satin finish. The eye and hand are not fooled. The M collection fits perfectly in contemporary, minimalist and sharp environments, places that appreciate simplicity.

## COLLECTION

M is for Valérie Mazérat, who designed this range, and for whole Material. The eye and hand are not fooled. The M collection fits perfectly in contemporary, minimalist and sharp environments, places that appreciate simplicity. 12 plate finishes for 13 button finishes. An infinite number of possible combinations of materials, consisting of plates, buttons and functions. It's up to you. The M collection has been available since 2023 in protruding formats and also with sockets with cover.

# NEW HOME AUTOMATION

**Confidence Collection.** Cover plates with round or square buttons designed to meet home automation needs.

**Confidence Collection, also available with the M Collection.** Dimmer with a wide flat LED button, compatible with a Bluetooth application.

Our collections are adaptable to new functions, ideal for connected projects. They offer home automation enthusiasts the opportunity to enhance their smart homes with advanced features. Our connected switches allow remote control via a Bluetooth application. It is now possible to turn on or off the lights, adjust or vary their intensity from a smartphone or tablet.

## COLLECTION

The Confidence collection, with its drop-shaped lever, is a great classic of the world of decoration. Its clean shapes and the detail of its neat finishes make it a must for your residential, hotel or tertiary projects. The Confidence collection deserves its name. The right touch, whatever your aesthetic choice.
