FARADAY | PRESS RELEASE

FARADAY

Add an elegant touch to your home decor with UIMAGE's latest creation - the Faraday lampshade! This sculptural work of art features an intricate brass mesh structure that is sure to captivate the eye. Its milky-white globe inside provides glare-free illumination, making it perfect for your dining table or hallway.

Inspired by the British scientist Michael Faraday's cage theory, this lampshade displays a fine grid that filters the light beautifully, casting an enchanting glow on your walls. The elegant design pays tribute to one of the most remarkable discoveries in the history of science and technology.

Designed by the talented in-house designer at UIMAGE, Jonas Søndergaard, the Faraday lampshade is the perfect addition to any room. The contrasting brass details and milky-white globe add a spark of sophistication to your decor.

Jonas Søndergaard states: *"As a designer, my fascination with science and the history of technology has always been a driving force behind my work. The Faraday lampshade is a perfect fusion of technology and aesthetics, featuring a unique grid structure that draws inspiration from Faraday's cage, resulting in an enchanting illumination."*

The lampshade is crafted from brass-plated steel and white opal glass and can be mixed and matched with different cord sets and canopies from the UIMAGE lighting accessory collection.

PRODUCT SPECIFICATIONS

Name

Faraday, lampshade
