

LAFABLIGHT

THE BRAND

LAFABLIGHT was born from an encounter between two design enthusiasts with common values, who share the same vision of "lighting": Cyrille, a designer and Laurent, a talent scout.

Created in 2021, LAFABLIGHT reflects its founders' wish for a "slow design": developing a responsible and sustainable French brand, offering a new perspective on lighting.

The collections' lines and spirit, in harmony with the values of the brand, are intended for lovers of light, sensible to responsible design and a sustainable mindset.

APPROACH

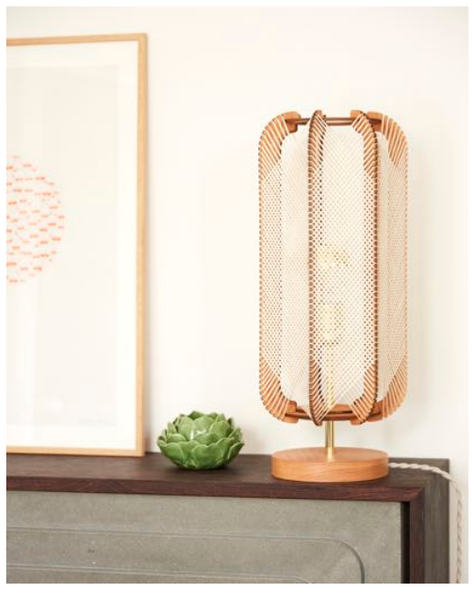

The aim of LAFABLIGHT is to create sustainable designs as an alternative to "fast consumption" trends, merging traditional know-how and today's technologies, while responding to the challenges of modern life.

LAFABLIGHT therefore develops its products in a spirit of simplicity, handcraft, durability and locality. We favor quality materials and close partnerships in a sustainable mindset.

THE COLLECTION

LAFABLIGHT designs and manufactures its lamps using a selection of noble materials: brass, natural fibers and dyes, wood from French forests (poplar, beech and oak), and gives priority to local partners and suppliers, guarantying a "made in France" label.

Our collection, designed with natural cotton threads woven on a wooden structure, offers a variety of shapes and braiding patterns and is available in a wide range of models: side lamps, floor lamps, table lamps and chandeliers. LAFABLIGHT also offers tailor-made products and carries out special orders at the request of its customers.

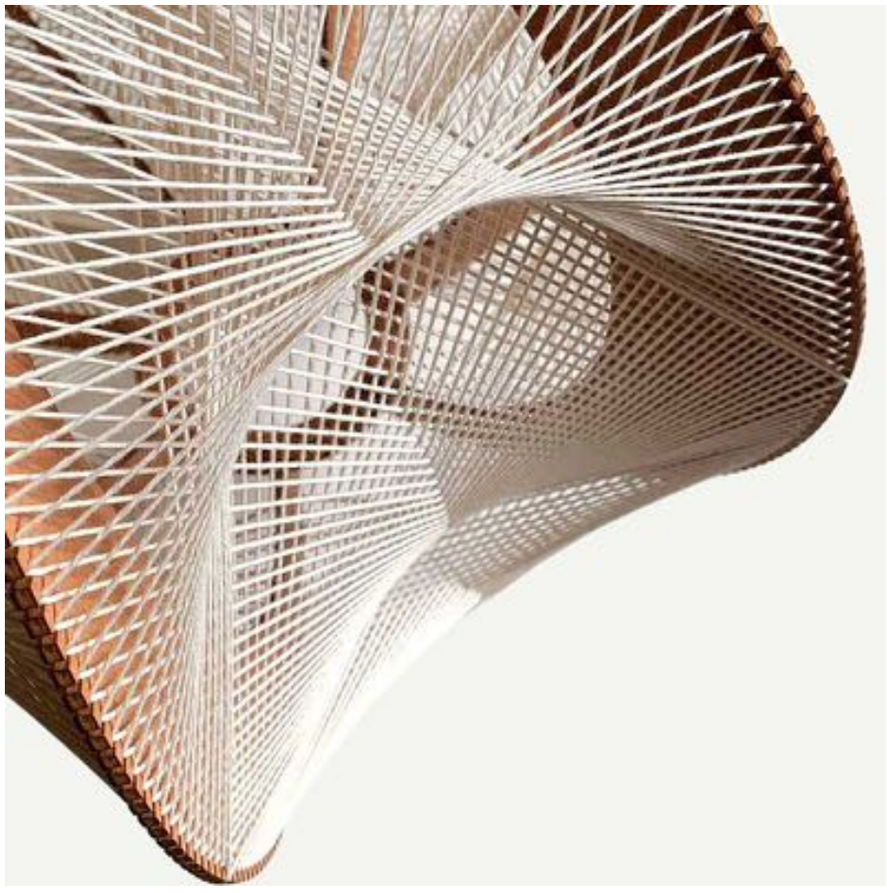

french touch design

Hung over a dining room table to better enjoy one's diner
A floor lamp in the living room for intimated reading time on a comfortable sofa
Bed side lamps to improve intimate atmosphere of a bedroom
A desk lamp next to our computer during day of home office
A table lamp put on a sideboard buffet for a chic scandinavian look
