SWAN

Inspired by swans swimming elegantly across the water. Beautiful small plate depicts not only the swans but the waves of the water surface. Compact plates are perfect for small treats and desserts or to accompany your drinks with nuts and raisins.

UMEHANA

Retro antique series of small and medium size flower shaped plates with moderate depth. Adorable, plump little birds and lovely plum blossoms are hand-sketched and transferred onto the plate using copper stencil transfer printing technique.

ÉTINCELER

Plate with impressive intricate lace like design inspired by paper lace doilies. Glaze collected in uneven parts of the lacy design creates lustrous elegance no paper lace can match.
