

# Bazar Bizar Living

*A world built around design, craftsmanship and collaboration*

## Our Story

Nearly a decade ago, founders Eddy Roothaert and Pascale Pelsmaekers sought to turn their deep passion into an interior and lifestyle brand. Guided by their background in hospitality, they began creating pieces that make a space feel alive and human.

Since then, Bazar Bizar has grown into a distinctive label of its own, known for its curated collections of homeware and lifestyle products. Each piece reflects a refined yet soulful aesthetic, blending raw and refined materials, tradition and modernity, handmade and contemporary style.

Our pieces are made to be lived with, to gather memories, and to remind us that beauty, at its truest, feels both familiar and free.

## Why Us?

### **Together in Craft**

The hands that craft our pieces are an extension of our family; small workshops, home industries and local communities.

### **Craft that Lives**

Every piece is shaped by hand, carrying the subtle marks of its maker.

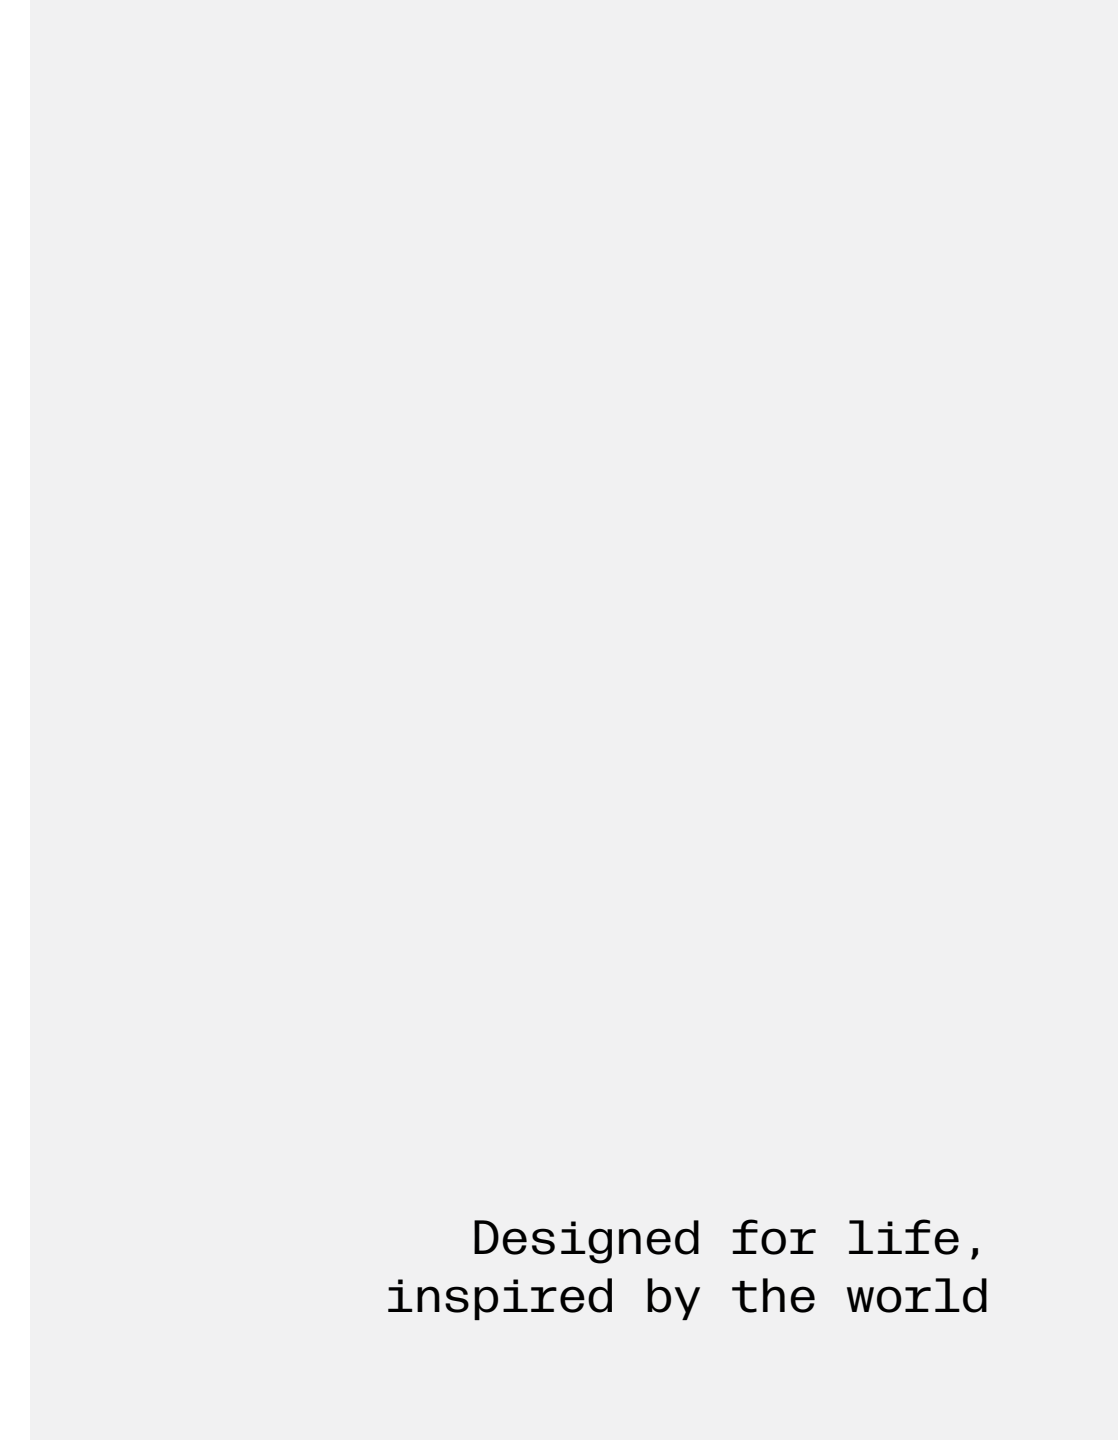

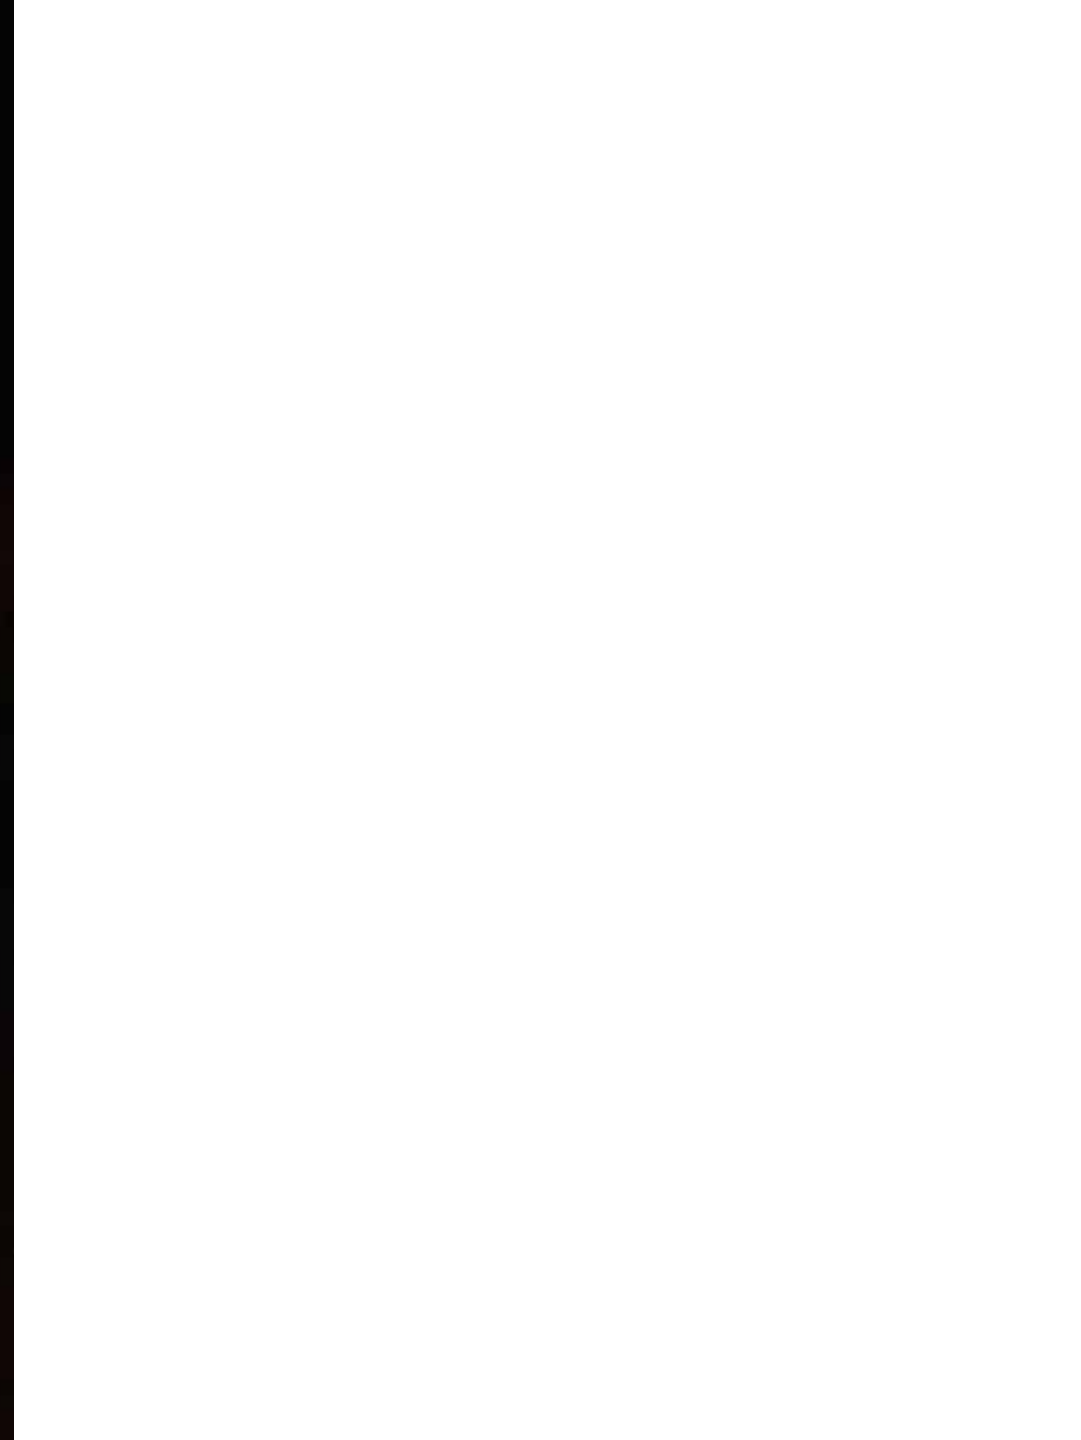

### **Design with Purpose**

Each piece is made to endure and to evolve with those who live with it; a quiet reflection of care, presence and lasting beauty.

### **Respect for Nature**

We continuously work to source more responsible, using certified wood, ethically collected shells and other natural materials.

Designed for life,
