

Welcome to Ib Laursen's Spring-Summer Collection 2024!

Step into an inspiring world with our new spring and summer collection - a tribute to the bright days and the long summer evenings. We proudly present our new collection with a wide range of new items. Relaxation and time for contemplation are in focus - and uniqueness characterizes our new collection. Several of the new items are handmade or feature handmade details giving each of them charm and soul.

As the sun's rays begin to warm, our new collection invites you to create the perfect outdoor sanctuary. Imagine sunny moments on the beach, where sun sails and parasols frame your days in the finest way, while the waves roll in along the coast. Here, you can enjoy a beach picnic surrounded by soft cushions and quilts with a glass of ice-cold lemonade in hand.

When it's time for afternoon coffee, the new collection offers many new items to set the finest table in your favourite outdoor space. With the new Mynte® café latte mugs, espresso mugs, and milk pots, you can serve a delightful cup of freshly brewed coffee and enjoy it in good company - and with a lovely tablecloth on the table, the cosy atmosphere is complete.

Indoors, you can create the ideal environment for relaxation and contemplation with many new candle holders giving your place an aura of calm and a touch of rustic charm. You'll find candle holders for the floor, the table, and for hanging, all offering great opportunities to create an enchanting atmosphere - especially when darkness falls, and the candles are lit.

The new collection also offers plenty of lovely textiles - quilts in luxurious quality, hand-crocheted bags, patterned tea towels, and fabric napkins with charming embroidery. Additionally, you'll find new items for the beloved pets, as well as a range of gold-plated earrings and bracelets, and everything else you need to create the perfect spring and summer atmosphere.
