

A summer with beautiful contrasts

Every season comes with a little bit of magic, but there is no way that we could hide that our absolute favourite season is summer! Warm days, sun beams tickling our nose, our feet in the grass – or on a liv outdoor rug! We move our complete living room to our outdoor space or use our indoor | outdoor textiles made from recycled PET to create the most fantastic picnic for our dear ones.

This season, as we always have a hard time choosing between black and white collections or colourful collections, we have decided to create a collection of contrasts for spring | summer 2024. Our PET styles ELEMENTS, TAAPIRI and INKA are available in black, white, and grey shades to create sophisticated, modern styles. To create more playful styles in juicy colours, discover our AVA collection in pink, orange, and brown with a retro touch.

Talking about contrasts: As much as we love to create modern designs, our playful souls sometimes long for more cuteness! That's why we have created new hand-tufted organic cotton rugs in the cutest animal designs. Let BEAR, CAT, DACHS or DINO move into your home and put a smile on your face.

We wish you a wonderful summer season!
