

## BROSTE COPENHAGEN

PRESS RELEASE JANUARY 2024

### Cheers to new cheerful glasses

Lighten the mood with a glass of bubbles, a sip of wine or a lavish dessert. The Limfjord collection has been extended to meet all of you and your dinner guest's needs.

The Limfjord collection is inspired by the Danish inlet called Limfjorden, with its beautifully curvy coastline and underwater limestone landscape. The tableware series is designed with the organic shapes of the seabed in mind. Now, we have added delightful new wine glasses, champagne bowls, and a centerpiece that works equally well as a serving dish or a fruit bowl.

Just as the soft tones of the plates, platters and mugs are chosen to resemble the nuances of mussels and oysters, and each delicate, organic piece is finished with a reactive glaze that gives the ceramics a soft finish like watercolours, so are the new items designed with a natural aesthetic in mind. The glasses are mouth-blown making each item unique, and suited to be mixed and matched with other Broste designs or your own vintage flutes, tumblers, and water pitchers.
