

BROSTE COPENHAGEN

PRESS RELEASE JANUARY 2024

Taverna - Your new dinner date

What will be your secret ingredient for succesful summer dinners this season - and many more to come? Taverna tableware, of course.

How do you plan for the perfect summer dinner? Well, apart from inviting your favourite people, select your produce at the farmers market, pick fresh herbs from the garden, and buy fresh fish straight from the harbour, you should also dedicate attention to the table setting. With the new Taverna tableware from Broste, we've made it easy to curate your dinner experience to be both aesthetically pleasing and delightfully chill.

The new line consists of nine pieces in dusty green with a quaint contrast rim in beige. The pieces are designed in Denmark, informed by the informal Mediterranean approach to dining and all items are made in hand-finished, glazed stoneware in Portugal.

All elements are adorned with a curved edge that enhances the presentation of the food, and the items look equally good as serving dishes as plates. The ample bowls are perfect for tossing a salat, serving your spaghetti vongole or for mixing up your sourdough. The collection embodies all the Broste core values, where form and function unite in an effortless, homely, and timeless fashion.

Home is where the B is.
