

# HISLE

THE ART AND MASTERY OF LIGHTING  
1994

## PRESS RELEASE - JANUARY 2024

For thirty years, HISLE has been designing and manufacturing in France exceptional lighting fixtures combining expertise and innovation. At **MAISON & OBJET 2024**, the company, renowned for its expertise in cordless lighting, presents new light's work. In terms of materials, technical features and dimensions, HISLE continues to pursue its research and development approach, remaining true to its values: top-of-the-range finishes, French manufacturing and advanced technology.

### THE AUDACIOUS RETURN OF THE LAMPSHADE

The designer Hervé Isle de Beauchaine brings back the pleated lampshade. Innovative in its choice of material, classic and timeless in its form, it elegantly tops the sleek design of ARTURO lamps. With its diffused and effective light, the lampshade invites you to share a soft and warm atmosphere.

Recommended retail price (France): from 600€ excl. VAT

### STATIK: WHEN LIGHTING MERGES WITH FURNITURE

To meet the needs of interior designers, HISLE has designed lamps to be integrated directly into furniture. The brand's flagship editions are now available in fixed versions for total integration into the space. A high-performance, essential lighting tool for coworking spaces, desks or libraries.

Recommended retail price (France): from 288€ excl. VAT

### CORDLESS LAMP IN XXL VERSION

Did you know about HISLE rechargeable table lamps? They're now available in a reading light version. Nomadic, they'll accompany you indoors and outdoors. With unsurpassed power, they let you modulate your lighting needs to suit your mood.

Recommended retail price (France): from 1000€ excl. VAT
