RETRO Collection

RETRO Collection

Since its creation in Drôme in 1954, LAFUMA MOBILIER has responded to the concerns of the French while keeping up with trends. Encouraged by special values of comfort, durability, accessibility and style it provides an alternative to the global offer of outdoor furniture sold as “consumable”.

To celebrate 70 years of this “made in France” adventure, the brand is issuing Rétro, an anniversary collection to honour its iconic models as real symbols of the period. With Rétro, LAFUMA MOBILIER promises to highlight everything that makes up its DNA: excellent “tube-fabric” knowhow and the unique styling of its historic Bronz’or colouring.

The models being honoured illustrate the main epochs in the story of the Drôme manufacturer: FGX and CNO in the 1950s, “Relax” in the 1960s including the Transat whose first appearance was in 1962 and finally the Pop Up which came out in 1992.

Available from late January on our website

70s INSPIRATION FOR THE 1970s

Celebrating LAFUMA MOBILIER's 70 years, the fabric used on these iconic models is inspired by the spirit of the seventies: Large blooms, a Flower Power revival updated with more current colours: pink, green, and coral, combined with the era's Bronz'or frames.

Because even at 70 years old, LAFUMA MOBILIER is not going backwards.

On the contrary!

In & outdoor
capsule collection

Thinking ahead, the brand is committed to sourcing its raw materials locally (73% France, 98% Europe) to limit its environmental impact and conserve resources. The principles intrinsic to the brand's creations involve the use of recycled production materials, the durability of its products (5-year guarantee), and the availability of spare parts for extending product life.

Since 1954, LAFUMA MOBILIER has made innovation and design central to its creation in order to remain a dynamic and committed brand. This is its maxim for the next 70 years!
