# HandMade Vintage Carpet

## DESCRIPTION

For a contemporary look with abstract appeal, this over-dyed area rug is skillfully crafted by the revitalization of a genuine hand knotted vintage Turkish rug woven in the 60's or 70's. Made from wool on cotton. The process in creating these works of art begins by shearing to lower the pile and to help "distress" them. They then undergo a series of processes to remove the color. They are now ready to be dyed in one color, a stage that can be repeated several times to reach the desired saturation level and hues that complement and contrast the old. In addition to being unique and hand-knotted, these rugs make a very special statement about bridging generations of artisanal skill and knowledge over time. This magnificent transformation can be considered a piece of contemporary art, with a unique look that complements any modern décor.

**Washable:** without using chemical drugs ,washed and wiped with plain water.

**MATERIAL:** 70% Cotton 30% Wool

**Design:**Premium quality, printed fabric. Double-sided. Invisible zipper. Suitable for sofas, beds, home decor, office.
