NEW! – Christmas Letters

Celebrate the festive season with a touch of simple elegance. Our products with the new "Christmas Letters" design combine modern design with classic charm and create an atmosphere of contemplation in white and gold.

A special highlight of the collection is that some of the products are available in a "raised" version. The high-quality 3D effect created by the raised letters gives the items a unique dimension and makes them real eye-catchers.

As a gift for your loved ones or as an addition to your own festive decorations: the "Christmas Letters" range is the perfect choice for celebrating the magic of Christmas.
