New vitaminized AA structures!

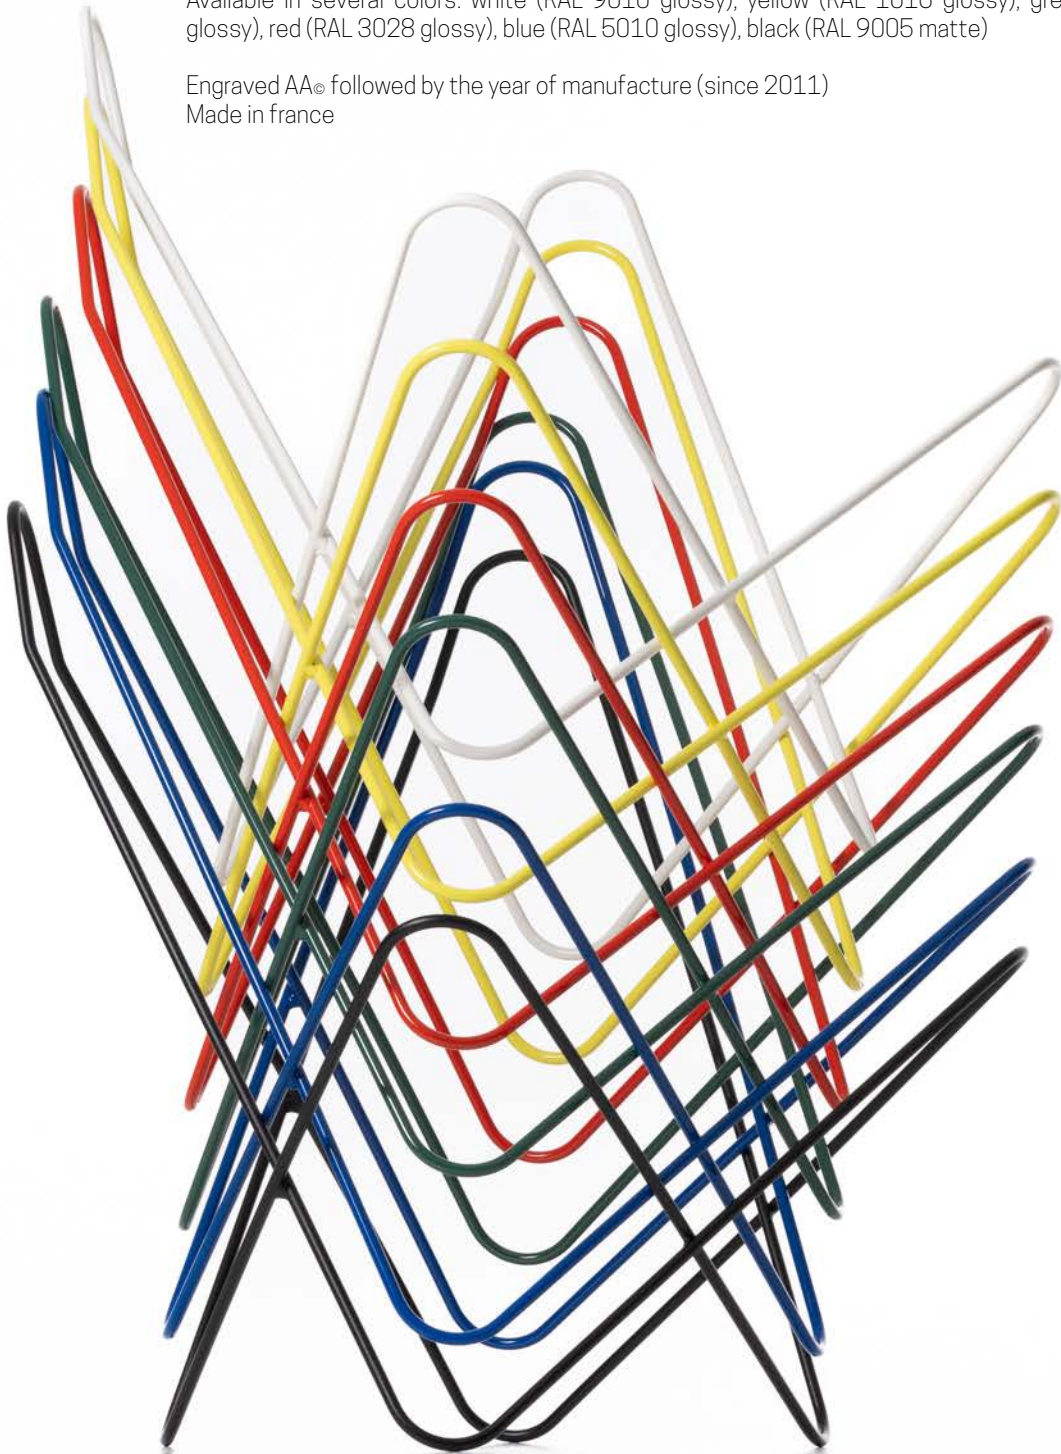

In addition to the current removable structure, the historic AA® structure in 1 single piece, published by Airborne® between 1951 and the 70s, is making a comeback in our catalog. Since the beginning of the year, it has been available in white, yellow, red, green, blue or black. Combined with a cotton canvas of the same color, your armchair will brighten up your interior or exterior (under cover).

Finishes: Structure in Ø12 mm powder-coated steel wire

Available in several colors: white (RAL 9010 glossy), yellow (RAL 1016 glossy), green (RAL 6028 glossy), red (RAL 3028 glossy), blue (RAL 5010 glossy), black (RAL 9005 matte)

Engraved AA® followed by the year of manufacture (since 2011)

Made in France
