

LES JARDINS
AIX-EN-PROVENCE

DESIGNER OF OUTDOOR FURNITURE & SOLAR LIGHTING

We're passionate about what we do.Creating and delivering customized solutions for each and every one of our customers is what motivates us every day. This new season marks the beginning of an era of new products, with collections rich in materials and design.

Since 1991, we have made three main commitments to improve our offering.

Design and responsibility
Although most of our teak products are not made in France, we strive to adopt eco-responsible practices:
• Our plantation teak comes from Indonesia and is sourced from certified, sustainable forests.
• We give preference to French or European suppliers wherever possible.
• We ask our suppliers to guarantee working conditions and wages that comply with standards, and are often above average.

Comfort and durability
We believe in the durability of our products. 80% of our products can be disassembled and repaired, extending their lifespan and reducing consumption. We encourage you to contact us to extend the life of your furniture!

CHESTER, the new outdoor furniture collection from LES JARDINS®. Combining elegance, comfort and innovation, this range features round, welcoming lines, a Duratek®-finish teak structure and woven backrests adorned with buttons. Designed to create an outdoor space as comfortable as it is aesthetically pleasing, CHESTER embodies our expertise in design and manufacturing.

*** Design and materials:**
The CHESTER collection consists of an armchair and a two-seater sofa, both designed to offer optimum comfort with generous dimensions. The teak structure is treated with our exclusive Duratek® process, giving it a contemporary grayish appearance without the need for maintenance. CHESTER's rounded lines add a soft, welcoming touch to any outdoor space.

*** Cushions:**
Thick, broad-woven cushions in an elegant mottled taupe color invite you to relax. The choice of this hard-wearing, water-repellent fabric ensures not only exceptional comfort, but also durability in the face of the elements.

*** Woven backrest adorned with buttons:**
CHESTER's aesthetic signature lies in the backrest, meticulously woven and adorned with buttons. These jewel-like details add a touch of elegance and sophistication to the collection.
