ASTERIA SPOT

Elevate your living space with the newest addition to the Asteria collection – Asteria Spot. A versatile spot lamp that can be mounted on your ceilings or used as a wall lamp.

At the heart of the Asteria Spot lies its ability to transform the atmosphere. Asteria Spot comes with three different light filters, allowing you to adjust the temperature and mood of the light. This makes Asteria Spot a lamp that you can use in all rooms – from a hallway with warm, welcoming light to a kitchen where crisp, practical light is preferred. The shade of the lamp is flexible, allowing you to adjust the angle of the light and ensure illumination right where you want it. Asteria Spot can be installed recessed or mounted directly on the surface of a ceiling or a wall.

Made from aluminium in polished steel or plated brass, the Asteria Spot features a sleek and stylish expression that will adorn any home.

“Inspired by an elegant constellation of stars in the sky, Asteria Spot will infuse your everyday life with the beauty of the cosmos” - Søren Ravn Christensen, designer & co-founder at UIMAGE.

Enhance your living space with the Asteria Spot and experience the transformative power of its elegant design and customisable lighting options.
