

OMNI CEILING | PRESS RELEASE

OMNI CEILING

Expanding the Omni lighting collection with another exceptional design, UIMAGE proudly unveils Omni ceiling - the ceiling lamp to spruce up your home.

With its sleek and simple design, Omni ceiling effortlessly fuses form and function. It captivates any space with its soft, serene illumination and transforms the atmosphere.

Crafted with meticulous attention to detail, the minimalistic shape of Omni ceiling exudes sophistication and elegance, demanding attention without overpowering the surrounding decor. Its unfussy design serves as a statement piece while harmoniously blending into any interior setting.

Designed by Chief Creative Developer at UIMAGE, Søren Ravn Christensen, Omni ceiling embraces versatility by incorporating a telescopic function, allowing effortless height adjustment to suit your desired lighting arrangement. The lamp and its two light panels can rotate 360 degrees, granting you unparalleled control over the light's placement and framing. It offers endless possibilities to suit the ambience according to your preference. To further enhance its adaptability, the Omni ceiling lamp is also dimmable with external dimmers, offering the ultimate level of customisation and mood setting.

“Embracing form and function in a symphony of brass and perforated dots of light.” – Søren Ravn Christensen, Chief Creative Developer & co-owner at UIMAGE

Omni ceiling belongs above a dining table, casting a warm and inviting glow during memorable dinners. Additionally, it is an excellent choice for conference rooms, providing a practical yet pleasant ambience for effective collaboration.
