ASTERIA WALL | PRESS RELEASE

ASTERIA WALL

UMAGE is now welcoming a new addition to the Asteria collection: Asteria wall – a versatile wall lamp to transform your space with elegance.

Crafted with great attention to detail, Asteria wall is available in two sizes – long and short – offering the choice to tailor the lighting experience to each unique space. The Asteria wall is dimmable, controlled by a discreet button on the lamp's screen. This feature allows you to effortlessly adjust the lighting to suit any occasion, whether it's a serene moment of bedtime reading, illuminating a corner for a cosy reading nook, or creating a welcoming embrace in the hallway.

Like the other designs in the Asteria collection, the Asteria wall features a tight and sleek appearance born at the crossroads of design, technology, and craftsmanship. Its brass details blend effortlessly with the minimalistic expression, ensuring a timeless design. The lamp is easily directed to your desired angle, allowing you to curate the perfect ambience, whether it's a soft spotlight or a gentle glow. The long model takes this versatility further, with the ability to move from side to side, providing enhanced functionality while maintaining its graceful presence.

Available in black and pearl white, along with the four captivating hues of our nuance colours, Asteria wall seamlessly integrates with any decor, adding a touch of refined elegance to an environment.

Asteria wall captures the essence of minimalist elegance with its adjustable illumination and tasteful design. With its sleek aesthetic and adjustable light, Asteria wall gracefully enhances the ambience of any interior, whether it's a cosy hotel bedroom, a bustling hallway or your kitchen walls.
