

TUD TO SHOWCASE EXCLUSIVE COLLECTIBLE ART TOYS AT MAISON & OBJET PARIS

TUD, a Dubai-based company renowned for its production of unique collectible art toys, is thrilled to announce its participation in the upcoming Maison & Objet September 5 to 9, 2024. This event marks an exciting opportunity for The Ugly Duck to connect with art toy enthusiasts and showcase its latest creations to a global audience.

TUD creates limited edition collectible art toys at the intersection of contemporary art and interior design, collaborating with celebrities and brands from around the world, such as Jean-Michel Basquiat, Michael Jackson, Pantone, Mike Tyson, Chupa Chups, Frida Kahlo, Punk Me Tender and Harif Guzman.

Maison & Objet's major showcase for French and international talent, has been rewarding companies of less than three years old that are ahead of the game in terms of innovation, business and creativity in the world of design, decoration and lifestyle. Each year, three inventive young start-ups who are real game changers in the market are given exhibition space at the show and support from market experts.

TUD is proud to be part of this community, where artists and brands can showcase their innovative creations and engage with a passionate audience. This event provides a unique platform for TUD to share a passion for collectible art toys and connect with fellow artists and collectors.
