### **Faithful friend - ROBODOG**

A watchful eye, pricked ears and always there when you need him: ROBODOG, created by Detlef Klatt, is a declaration of love from the designer to the stray dogs that are a feature of many streets and beaches in the Philippines. Klatt Objects has now given them a stylish home. In the life-size wooden version, ROBODOG likes to position himself in places where he can keep a watchful eye.

The new collector's item is based on the existing ROBOTER series, which, like ROBODOG, is hand-carved and assembled from local driftwood. Each object is therefore unique. The dog measures around 52 cm in height and, as a table centrepiece or small stool, it is

also happy to use its straight back (h: 30 cm) as a tray.

### **About Klatt Objects**

The lifestyle brand Klatt Objects stands for selected and responsible design art. The founder and creative director is Detlef Klatt. The designer combines more than 20 years of experience in the fields of floristry, design, production, edition and trade. His contemporary collections include home accessories, vases, vessels, bowls, decorative objects and unique pieces made of porcelain, wood, shells and various natural materials. He is responsible for the design and the craftsmanship is carried out in the Philippines according to responsible principles. The sophisticated in-house collection is complemented by paintings and selected objects by international artists.

### **Press contact**

Would you like more details or high-resolution images? Please feel free to contact me at any time. And of course we would be delighted to receive a specimen copy.
