

## Cocos Upholstered storage bed

Novelties Salone del Mobile.Milano 2024

[DOWNLOAD PRESS KIT](#)

With a view to constant growth and evolution of projects, also for the bedroom, Milano Bedding presents the **Cocos upholstered storage bed** at the Salone del Mobile.Milano 2024, example of a perfect combination of design, functionality and comfort.

The model is immediately identifiable by its **light and “floating” frame**, which hides the storage in the centre: an aesthetic studied in detail to make the inclusion of a bed with this functionality in the bedroom more delicate and simpler. The base, in fact, recesses from the bed frame to disappear from sight, thus giving a sensation of lightness and of sleeping floating in the air.

The Cocos **quilted headboard features a woven workmanship** that creates an elegant and contemporary effect, capable of giving personality to the bedroom.

Sleeping comfort is ideal, thanks to the **self-adjusting slats** and the possibility of choosing from a wide range of Milano Bedding mattresses, designed for different needs.

Like all the products offered by the company, Cocos is also taken care of down to the smallest detail thanks to the skilled seamstresses, professional upholsterers and collaborators of Milano Bedding who operate in the Desio headquarter, in Brianza, Northern Italy, and who are the true symbol and strength of Italian craftsmanship.

Dimensions:

W 172 or 192 x D 208 x headboard H 108 x net H 40 cm

Details:

Cocos can be upholstered in fabric, leather or like-leather and the cover is completely removable.
