En une saison, la toile matelassée ultra-moelleuse, BeComfort®, mise au point par LAFUMA MOBILIER, est devenue la référence en matière de confort et de design des textiles outdoor proposés sur le marché.

Ce matelas est l'association de « 3 épaisseurs » techniques : un filet 3D résistant aux UV et sans post traitement, pour un impact environnemental réduit, une ouate polyester de 4 cm d'épaisseur offrant un confort inégalé sur une assise outdoor et une toile Batyline® conférant une incroyable résistance à la déchirure et aux intempéries.

Cette année, LAFUMA MOBILIER propose une nouvelle teinte pour le tissu BeComfort®, un beige Moka très élégant qui se marie à merveille avec les structures grises, en acier ou en aluminium selon les modèles.

Produits fabriqués dans la Drôme. Labelisés Longtime®. Garantis 5 ans.
